FIRST BOARD.

Gold closes at 1851, after selling at 1351@1351. The clearings of the Gold Exchange Bank were \$83,535,000, and the balances \$1,758,000. Gold-bearing Government stocks continue in de-

mand, with large sales. In State bonds little done. Bank shares are firm, with small offerings. Railway shares are barely steady. Money is very easy to be had, and the roads (so their holders say) all show gains in their traffic for April, but they do not rise. The reason why the fancies do not advance lies in the fact that from now until September they will hardly earn operating expenses, leaving interest, dividends and sinking-funds to be earned by moving the wheat now growing at the West. After the call the market was sluggish at board quotations. Hudson River sold at 99. The traffic on this road is enormons, and outgoing trains have been stopped and their ears taken off to accommodate the passengers who crowd the trains before they reach the city. Late in the afternoon prices were advanced on the leading fancies, Erie selling at 60%, and North-Western at 602. The last quotations were: N. Y. Central, 971@971; Erie, 632@631; Reading, 1031@1031; Michigan Southern, 681@681; Cleveland and Pittsburgh, 721@73; Rock Island, 801@891; North-Western, 351 @351; do. Preferred, 601@601; Fort Wayne, 961@961.

Money continues easy at 5@6 per cent on call with large amounts offering to leading houses. Commercial paper sells steady at former rates.

Bills at 60 days on London are quoted at 1082 @1091 for commercial, 1091@1091 for bankers'; do. at short sight, 1101@1101; Paris at 60 days, 5.20@5.132; do. at short sight, 5.132@5.10; Antwerp, 5.182@5.132; Swiss, 5.171@5.132; Hamburg, 361@361; Amsterdam, 41@414; Frankfort, 41@411; Bremen, 781@791; Prus-

The Times devotes a column to proving that Mr. McCulloch is going to abandon contraction and reissue the currency he has already retired. The plain English of this is that The Times wants the Government to abanden the policy to which it is committed by every utterance the Secretary has ever made, and to which it has faithfully adhered ever since the close of the war, in order to help the holders sell

warfare at the West is more bitter than ever. The roads are now carrying freight at less than canal and Lake rates. The Michigan Southern is losing in this way at the rate of over \$1,000 a day, and the Fort Wayne and New-York Central are losing nearly as

the present capital of \$6,000,000 for the next semi-annual dividend.

With the exception of nine shares of spurious stock all the demands upon the Company, on account of the famous Schuyler fraud, have been settled.

The seven per cent bonds of the Company, falling due in December last, the Board of Directors, under authority of law so to do, distributed new stock to retire the same; thereby increasing the capital of the Company to \$6,000,000. The Superintendent, in his report to the Directors, set forth in detail the various important improvements which have been made, and are now being made, by the creetion of substantial, commodious, and elegant passenger depots at Stamford and Norwalk, and engine houses at Norwalk and New-Haven, also by the purchase of new locomotives, &c.

THE FIRST MORTGAGE BONDS OF THE CENTRAL PACIFIC RAILROAD COMPANY, now offered for sale, are issued under a First Mortgage upon that portion of their road which lies in the State of California, extending from Sacramento to the State Line. This is considered THE MOST VALUABLE AND REMUNERATIVE LINK of the GREAT NATIONAL ROUTE TO THE PACIFIC, and the First Mortgage Bonds secured upon it possess peculiar features

of safety and profit.

First: This portion of the road rans through the heart of California, and connects Sacramento with the extensive mining regions of Nevada, which must draw their supplies from the Pacific Coast over this road, and which have paid as high as \$13,000,000, in gold, for transportation in a single year. Thus THE LOCAL TRADE OF THIS POR-TION OF THE ROUTE MUST BE IMMENSE INDEPENDENTLY

OF THE THROUGH CONNECTION WITH THE EAST. Second: The most expensive portion of the road, over the Sierra Nevada, is already built, equipped, and running, and the NET EARNINGS of the completed portion (94 miles) ARE LARGELY IN EXCESS OF THE INTEREST ON ALL THE FIRST MORTGAGE BONDS WHICH THE COMPANY

ALL THE FIRST MORTOAGE ECODE WHICH THE COMPANY CAN ISSUE UPON 150 MILES.

Third: The mortgage is made and recorded under the laws of the State of California, where specie payment has never been suspended, and by the laws of that State and the authority of Congress the Company's contract to pay the principal and interest of their Bonds in gold in Le-

GALLY BINDING.

Fourth: The revenues of the Company are received in gold, and their rates for transpertation of passengers and freight are three times those of Eastern reads, so that their operating expenses are less than 25 per cent

OF THE GROSS EARNINGS.

Pifth: The amount of the Bonds is less than one-third the cost and value of the property pledged for their redemption—the United States Government having advanced an equal amount to aid the construction of the road, and relinquished the first lien upon the whole in favor of these first mortgage bonds.

The bonds bear interest at the rate of six percent—principal and interest payable in gold in the City of New-York—and see offered at 55 per cent and accuracy interest from January 1, in currency. At the avenue rate of six

THE MARKETS THIS WEEK.

There was a full supply of cattle at Hudson City last Wednesday, but a heavy rain caused somewhat of a dall market, and the 2,692 head in the yards were not est sold at night. Prices roled about as at that place one week ago, or not far from & loss than at One-hundredth-st. Monday. Owners paid an advance for their stock at Albany, and complain that they cunnot get a commission out of them, the way things are going. The stock was generally of only fair quality, with some thinnish droves, and a few good lots. Prices ranged from 15½, to 17½, with tops at 18c., and one or two fine animals sold at 19½, with tops at 18c., and one or two fine animals sold at 19½, with tops at 18c., and one or two fine animals sold at 19½, salth sold above 17½, and butchers aimed 10 get good killing animals at 17c. There were several lots of stillers on sale. Ou Tharsday there were 174 fresh cattle arrived at Hudson City, 218 at Communipaw, and 658 at One-hundredth-st., making a total of 3,312 since Monday, and, including the receipts of that day, 5,412 for the week. The weather is more favorable, and buyers turned out strong, taking all the stock at Communipaw and at One-hundredth-st., paying about the prices of the previous day. Two good droves were wholesaled at 17¢. They would dress about 8 cwl.

Coming down to the market to-day at One-Hundredth-st., we find over 2,100cattle on sale, including some 300 or more head actually rold on Sanday, though still in the yards. Superintendent Kennedy's "Sanday law order" is needed at the eattle yards to prohibit the traffic in live stock, not only among the Jews, but among Gentiles who pass for Christinas. Trade opened lively this morning, and continued pretty uniform at about last week's rates, though several owners who paid an advance on stock at Albany and did not make more than a commission—in some cases not that—called the market lower, while an equal number of salesmen and more buyers were positive there was an advance. The quality was generally pretty good, and a unfortunate that the butchers cannot or do not go to the markets with sufficient money in pocket, or in the bank to pay at once for their purchases. They could certainly get better bargains, and would not so frequently be met with the reply to their queries, "I have nothing that will suit you." Credit is bad at best, but in these times of distrust and frequent failure it is worse than formerly.

MILCH COWS—The continued high price of beef has
drained the cow stables of all fat animals, even if they
were only partially dry. This creates a demand for fresh
cows, and the market has improved, both in prices and
ready sales. The largest call, however, comes from outside persons buying one or two cows each. The larges
stablemen are not, as a general thing, increasing their
stock. Prices may be quoted at \$600\$70 for small poor
cows, homely to look at, light at the pail and hard to fat
into small beeves. Then \$750\$5 for thinnish, small milkers, up to \$900\$95 for fair cows of average size, and \$100
each for large handsome animals, while some which go
as much by fancy as anything else, have been soid at
\$125; such, for instance, as a fine cow, a cross between the
Devon and Ayrshire, soid at Chamberlin's for the latter
price. This, by the way, is now the largest fresh cow
market place in the city.

YEAL CALVES,—Receipts are lighter, and with a good
demand, higher prices are obtained, fat veals selling at

market place in the city.

VEAL CALVES.—Receipts are lighter, and with a good demand, higher prices are obtained, fat veals selling at lic;, and in some cases 12c., where the best are belected. Decent calves bring 10±10±0c., and poor ones run down to \$30c. Dressed are not as picuty, and 15±16c. are obtained for fat ones, with the skin on—in some cases 17c. for very fine arrivals sold from the boats.

THE SHEEP MARKET.

Receipts this week, 13,471.
QUOTATIONS—Sheared sheep, 7½39c.; lames, 16±18c.
With a further increase in the receipts, and a sort of combined determination on the part of buyers to crowd down prices, we have to report a dull market to-day, with several hundred unsold. Trade was lively up to Friday, at which time butchers held back and succeeded in getting off ½0;c. \$\psi\$ is Saturday, while to-day they are selling close upon 1c. lower than this day week—few lots going above 9c., though a choice lot might bring 94c. They are nearly all coming forward sheared. A few lots of weel sheep were sold at 10±104c. Lambs are not plenty and are doing well, selling at \$2.58 each, or 15±17c. \$\psi\$ 2, with some line ones at \$10.50 each, or more than 18c. \$\psi\$ 2, with some reports which have gone out that

17c. \$\psi\$ D, what sold have gone out that Chamberlin's Robinson-st. market was to be closed, we have authority to state to the contrary. More than 1,000 sheep and about 196 Spring lambs have been sold there during the past week, and indications point to a still larger business.
